### Aufruf zu Fachbeiträgen - Call for Papers

Dear expert colleagues,

By vote of the general meeting, the EMATEM Summer School 2025 will again take place at Kloster Seeon, Bavaria, Germany. We are very much looking forward to welcoming you again and are eagerly awaiting the technical contributions.

In keeping with tradition, the latest findings on the improvements of measurement accuracy and durability of Thermal Energy Meters, their conformity assessment, meter usage and market surveillance will be presented at the EMATEM Summer School.

Today the board of EMATEM e.V. calls for proposals for technical papers for the 21<sup>st</sup> Summer School.

Lecture duration: 20 min. + 10 min. discussion, company presentations can be attached in writing. At the symposium, a mutual simultaneous translation in German - English will be available.

This year, we would very much appreciate if you will submit your technical presentations in English, if possible, very helpful in English and German as well. This agrees with our international alignment.

**Please submit your proposal for a paper with the title/topic and a short, meaningful abstract by February 28, 2025.**

A selection will be made by mid of March 2025. You will then receive prompt notification as to whether your presentation registration could be considered.

Please submit the **completed presentations** by **mid-August 2025**. As in previous years, the EMATEM PowerPoint template is available.

#### Course of the summer school 2025

general meeting (16.09.2025, from 17:00 to 19:00 hours)

The lecture events will start on 17.09.2025 at 09:00 and end on 18.09.2025 (according to recent planning) at 15:00.

Kind regards

gez. Dr. J. Rose
